

Confidentiality Policy

Document Owner: Madhulata Solutions

Effective Date: [Insert Date]

Version: 1.0

1. Purpose

Madhulata Solutions ("Company", "we", "our", or "us") is committed to protecting the confidentiality of information entrusted to us by our clients, employees, business partners, and other stakeholders.

This Confidentiality Policy establishes the principles and requirements for handling confidential and proprietary information throughout its lifecycle. It is designed to protect business interests, preserve client trust, safeguard intellectual property, and support compliance with contractual, legal, and regulatory obligations.

2. Scope

This policy applies to:

- Employees
- Contractors
- Consultants
- Interns
- Temporary staff
- Advisors
- Third-party service providers who have access to Company or client confidential information

This policy applies to confidential information regardless of its form, including:

- Electronic records
- Physical documents
- Email communications
- Audio or video recordings
- Verbal discussions
- Source code repositories
- Cloud storage
- AI systems
- Databases

- Development environments
-

3. Definitions

3.1 Confidential Information

Confidential Information means any non-public information disclosed to or accessed by personnel in connection with their work that has commercial, technical, operational, financial, or strategic value.

Examples include, but are not limited to:

- Client business information
 - Project documentation
 - Software source code
 - System architecture
 - AI prompts and prompt libraries
 - AI model configurations
 - Machine learning datasets
 - Vector databases and embeddings
 - Product roadmaps
 - Financial information
 - Pricing models
 - Business strategies
 - Research and development materials
 - Security configurations
 - Authentication credentials
 - Customer and supplier information
 - Internal policies and procedures
 - Non-public reports and presentations
-

3.2 Trade Secrets

Trade Secrets are a subset of Confidential Information that derive independent economic value from not being generally known and are subject to reasonable measures to maintain their secrecy.

Examples include:

- Proprietary AI algorithms
- Prompt engineering methodologies

- AI agent architectures
- Software frameworks
- Internal automation workflows
- Product designs
- Business methodologies
- Customer acquisition strategies
- Pricing formulas
- Proprietary datasets

Trade Secrets shall receive the highest level of protection under this policy.

3.3 Exclusions

Confidential Information does not include information that:

- Is publicly available through lawful means.
 - Was already lawfully known before disclosure.
 - Is independently developed without use of confidential information.
 - Is lawfully obtained from a third party without confidentiality obligations.
 - Has been approved in writing for public disclosure.
-

4. Ownership of Confidential Information

All confidential information provided by clients remains the property of the respective client unless otherwise agreed in writing.

Confidential information created by Madhulata Solutions during the course of business remains the property of Madhulata Solutions unless ownership is transferred by contract or applicable law.

Nothing in this policy grants ownership or licensing rights to confidential information.

5. Responsibilities

Personnel who have access to confidential information shall:

- Use confidential information only for authorized business purposes.
- Protect confidential information from unauthorized access or disclosure.
- Follow Company security and data protection policies.
- Store confidential information using approved systems.
- Immediately report suspected confidentiality breaches.

- Return or securely dispose of confidential information when required.
 - Exercise reasonable care when discussing confidential matters in public or shared environments.
-

6. Handling Confidential Information

6.1 Electronic Information

Confidential electronic information shall be protected using appropriate safeguards, including:

- Encryption where appropriate
 - Multi-factor authentication
 - Role-based access controls
 - Secure cloud storage
 - Approved collaboration platforms
 - Secure backup procedures
 - Version control systems
 - Security monitoring
-

6.2 Physical Information

Physical confidential information shall be:

- Stored in secure locations.
 - Protected against unauthorized access.
 - Removed from public view when unattended.
 - Destroyed using secure disposal methods when no longer required.
-

6.3 Verbal Communications

Personnel shall avoid discussing confidential matters:

- In public places
- On unsecured communication channels
- In the presence of unauthorized individuals

Care should be taken during meetings, conference calls, and video conferences to ensure confidentiality is maintained.

7. Need-to-Know Principle

Access to confidential information shall be granted only to individuals whose responsibilities require such access.

Managers shall periodically review access privileges to ensure they remain appropriate.

8. Approved Devices and Storage

Confidential information shall only be stored or processed using Company-approved devices, repositories, cloud services, and collaboration platforms that meet applicable security requirements.

Personnel shall not:

- Store confidential information on unauthorized personal devices.
 - Use personal cloud storage services for Company or client information.
 - Transfer confidential information to unapproved external storage media without authorization.
-

9. AI Systems and Confidential Information

Because Madhulata Solutions develops and delivers AI-powered solutions, special precautions apply when using AI technologies.

Personnel may:

- Use Company-approved AI platforms for authorized business purposes.
- Process client information through AI systems only where contractually permitted and appropriately secured.
- Use anonymized or sanitized information whenever practical.

Personnel shall not:

- Submit confidential client information to unauthorized public AI platforms.
- Upload source code, authentication credentials, encryption keys, or proprietary business information to AI systems that have not been approved.
- Share confidential prompts, prompt libraries, or AI workflows outside authorized environments.
- Use AI tools in ways that expose confidential information to unauthorized parties.

Appropriate safeguards shall be applied to prompts, embeddings, vector databases, AI-generated outputs, and model configurations.

10. Restrictions on Disclosure

Confidential information shall not be disclosed to:

- Unauthorized employees

- External organizations without approval
- Competitors
- Public forums
- Social media platforms
- Unauthorized AI services
- Any person without a legitimate business need

Disclosure to third parties shall require appropriate authorization and, where applicable, a confidentiality or non-disclosure agreement.

11. Compelled Disclosure

Where disclosure of confidential information is required by law, regulation, or a valid court order, personnel shall promptly notify Madhulata Solutions unless prohibited by law.

Where appropriate, the Company may seek protective measures before disclosure.

Only the minimum information legally required shall be disclosed.

12. Remote Work

Personnel working remotely shall:

- Use secure networks.
 - Lock devices when unattended.
 - Prevent unauthorized viewing of confidential information.
 - Use Company-approved communication tools.
 - Report lost or stolen devices immediately.
 - Maintain physical security of Company equipment.
-

13. Return and Secure Disposal

Upon termination of employment, completion of a project, or upon request, personnel shall:

- Return all Company and client confidential information.
 - Delete authorized electronic copies.
 - Securely destroy physical records.
 - Return Company-issued devices and storage media.
 - Certify deletion or destruction where required by contractual obligations.
-

14. Survival of Confidentiality Obligations

The obligation to protect confidential information continues after employment or engagement ends.

Unless otherwise specified by contract or applicable law:

- Confidentiality obligations shall survive for a minimum of five (5) years following termination of employment or engagement.
 - Obligations relating to Trade Secrets and information protected by law shall continue for as long as such information remains protected.
-

15. Reporting Suspected Breaches

Personnel shall immediately report any actual or suspected:

- Unauthorized disclosure
- Data leakage
- Lost or stolen devices
- Credential exposure
- AI prompt leakage
- Exposure of source code
- Unauthorized sharing of confidential information
- Security incidents affecting confidential information

Reports shall be investigated in accordance with the Company's Incident Response Policy.

16. Training and Awareness

Personnel with access to confidential information shall receive appropriate training covering:

- Confidentiality obligations
- Secure handling of client information
- AI-related confidentiality risks
- Secure collaboration practices
- Incident reporting procedures
- Data protection responsibilities

Training shall be refreshed periodically to reflect evolving risks and technologies.

17. Compliance

Failure to comply with this policy may result in:

- Disciplinary action
 - Suspension or revocation of system access
 - Termination of employment or engagement
 - Contractual remedies
 - Civil or criminal legal action where applicable
-

18. Policy Review

This policy shall be reviewed at least annually or whenever significant changes occur in:

- Business operations
- AI technologies
- Client requirements
- Legal or regulatory obligations
- Information security practices

Updates shall be approved by authorized management.

19. Contact Information
